PHILOSOPHY OF AN ECOLOGICAL TRIP

Ecotourism is the location; the Tuscan Archipelago. Ecotourism is the the moment. Far from the crowds of summer tourists we are able to feel the rhythms of the islanders. Because in places like these we can't be in a hurry. For once let's stop the clock that runs our lives and take the time to truly enjoy what nature offers us every day of the year and every minute of the day.

Let's bring something back with us, not a flower or a rock, but a sensation or an emotion that makes an unforgettable memory.

Pelagos is in association with Ecotourism Italy.

IN COLLABORATION WITH

Loc Patresi - Marciana www.hotelbelmare.it

Hotel Belmare, in the heart of the National Park of the Tuscan Archipelago, is family-run hotel which opened in the 1970s. It was born from the idea of Signora Assunta, who believes that tourism is not just a means of economic development, but a way to coexist with nature. And it's truly the nature surrounding Hotel Belmare that is its strong point.

Both the terrace and the rooms offer splendid views of the luxuriant Mediterranean landscape, from the surrounding hillsides all the way down to the sea. In the evenings the sun sets over the Corsican sea, setting fire to the sky and filling it with countless vivid colors.
